

Let's Fly a Kite

Sora has a new kite. The kite is red. It is a good kite to fly.

The wind is just right. Sora holds the kite. He lets the kite string out a little at a time. The kite rises up in the wind bit by bit.

Sora runs, and the kite sails in the air. It sails like a bird. The wind blows and makes it sail.

The kite has a long tail.

We all like to watch kites fly in the wind.
